

TECHNICAL BULLETIN

New 6" AdvanceDrive Wheels

OPERATORS: SlideDriver™ operator models using 6" AdvanceDrive wheels

SUBJECT: New 6" aluminum AdvanceDrive wheels

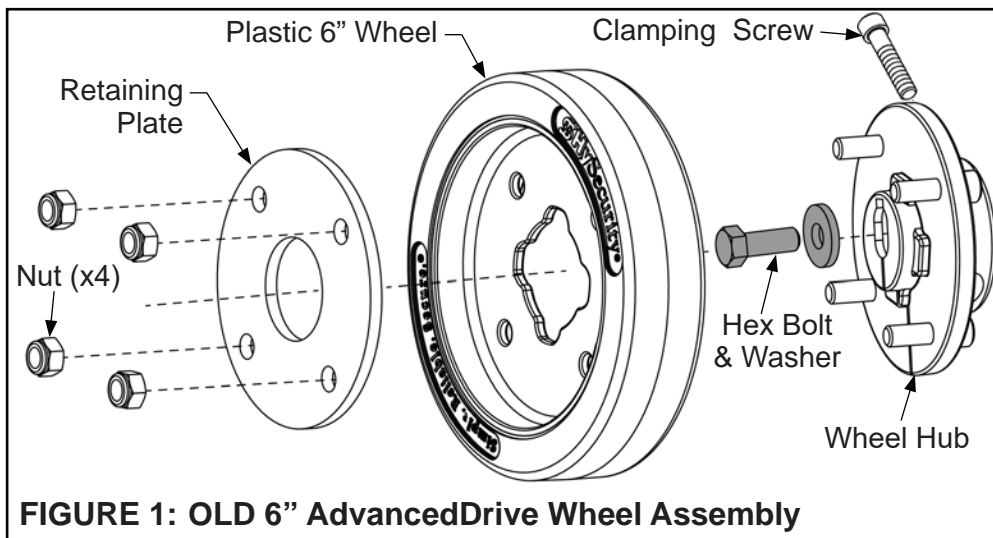

SUBJECT DESCRIPTION:

The 6" AdvanceDrive wheels used in SlideDriver models have been replaced with new wheels that do not require a metal retaining plate. The 8" AdvancedDrive and 8" XtremeDrive wheels used in some models will be updated similarly at a later date.

IMPACT:

Simpler disassembly during maintenance.

Figures 1 and 2 (below) show the differences between old and new AdvancedDrive wheel assemblies.

Part Numbers

Use the part numbers below to order 6" AdvanceDrive replacement kits.

To replace original aluminum wheels use:

- | |
|--|
| P/N MX002707
AdvanceDrive, 6" wheel/hub |
| <ul style="list-style-type: none">• wheel hub• hub hardware (hex bolt, washer, clamping screw)• new aluminum wheel• lug nuts (x4) |

To replace plastic wheels use:

- | |
|--|
| P/N MX4994
AdvanceDrive, 6" wheel |
| <ul style="list-style-type: none">• new aluminum wheel• lug nuts (x4) |

To procure lug nuts, use:

- | |
|---|
| P/N MX4993
Lug Nut, 82 Deg, 5/16-24 |
| <ul style="list-style-type: none">• lug nuts (x4) |

NOTE: New wheels are compatible with the hubs from plastic wheels but require new nuts. If replacing older aluminum wheels they will need a kit with a new hub.
